

First Nations Wildlife Harvest Supply Requirements – Hunter Survey Form

Harvest Period: January 1 to December 31, 2016

Hunter or household name (optional): _____

Interviewer name (if applicable): _____

Date _____

The Ministry of Forests, Lands and Natural Resource Operations (FLNR) acknowledges that wildlife harvest data collected from individual First Nations hunters does not equate to First Nations communities' wildlife harvest supply requirements for food, social and ceremonial use. The information collected through this form will be held in confidence by the FLNR Fish and Wildlife Section and used only to help inform wildlife harvest supply requirements estimates. FLNR would welcome and appreciate any additional information First Nations communities would like to provide regarding their harvest supply requirements.

Species	Total Number Harvested in 2016	Classification Breakdown of Total Number (#) Harvested in 2016			Season(s) of Harvest (spring, fall, summer, winter)	General List of Harvest Location(s) (Please list the Wildlife Management Unit(s) where harvest occurred.
